Merged RfC/IUR Doc

Deborah McKean to: Jim Martin, Carol Rushin, Carol Campbell, Elisabeth
Evans

05/11/2011 11:08 AM

We received the merged document at about 6pm yesterday. Bob Benson and David Berry have given me an overview of their initial review of the document. Of particular note is the omission of text from the original RfC document that discusses the full Univ of Cincinnati (UC) data set and the alternative analysis of the data. If you recall, Paul Anastas selected the NCEA modeling approach, but indicated that the R8 approach should also be discussed which used the full UC data set rather than a partial sub-set. In the combined document, NCEA removed that discussion. In addition, Bob noted some inaccuracies in sections of the document.

I have requested that Bob do an 'underline/strikeout' version correcting the inaccuracies, and adding back the alternative approach requested by Paul A. In the mean time, both Wendy O'Brien and Susan Griffin are also reviewing the document. The plan is to have all major comments summarized by morning to send to NCEA.
